

ITEM OF SEATING FURNITURE

Abstract of the Disclosure

5 An item of seating furniture having a seat and a
backrest which are supported in an articulated manner on a
frame, and having an operating mechanism for adjusting the
inclination of the seat and the backrest. The backrest has
a catch member and, when the backrest is inclined from a
front position into an inclined rear position, the catch
10 member comes into operative contact with the seat as of a
specific angle of inclination of the backrest in such a
manner that further inclination of the backrest brings about
a simultaneous adjustment of the seat.
